DETAILED ACTION

Continued Examination Under 37 CFR 1.114

[1] A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on July 31, 2009 has been entered.

Response to Arguments/Amendments

[2] Presented arguments have been fully considered, but are rendered moot in view of the new ground(s) of rejection.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

[3] Claims 2 and 17 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Claims 5

Art Unit: 2624

and 20 disclose removing similar frames. However, the dependent claims 2 and 17 recite a redundant step of removing similar frames. The application as filed does not disclose the redundant step of removing similar frames. Suggestion: Amend claims 2, 5, 17 and 20 in similar format to claim 3.

[4] Claims 2, 5, 17 and 20 are rejected under 35 U.S.C. 112, second paragraph, as failing to set forth the subject matter which applicant(s) regard as their invention. Presence of dependent claims with a broader recitation of the independent claim's limitation casts doubt as to the scope of the independent claim. Here the presence of dependent claims 2 and 17, which recite in broad terms removing similar frames which is also recited in narrow terms in independent claims 5 and 20, cast doubt on the scope of the independent claims. Suggestion: Amend claims 2, 5, 17 and 20 in similar format to claim 3.

Election/Restrictions

[5] If the above matters are resolved, this application would be in condition for allowance except for the presence of claims 8-15, 23-30 and 32 directed to a non-elected invention. Accordingly, claims 8-15, 23-30 and 32 should be cancelled.

Allowable Subject Matter

[6] Claims 2-7 and 17-22 would be allowable, if the above matters are resolved.
